Evening Brief

Date: Friday August 17, 2018

Weather Summary

Drier NW flow moves into the region Saturday with dry, gusty winds across eastern Idaho and eastern Utah. Sunny skies and lighter winds return on Sunday as the ridge begins to build back into the Great Basin. Gusty southwest winds pick up over Nevada early next week.

Southerly moisture returns to the Great Basin by midweek, with showers and thunderstorms across southern areas, mostly on the wetter side

Preparedness Levels & Great Basin Fire Activity (from WFDSS)

Great Basin	5	Moderate to Heavy Initial Attack Activity
National	5	GB New Fires and Acres: 37 fires 3,441.2 acres; 20,139 acres large fire growth

Great Basin Fuel Status [interactive link](#) (Use Edge, Chrome or Firefox browsers)

Fuels and Fire Behavior advisory has been issued for [Northern Great Basin](#)

Fuels/Fire Potential

A Fuel/Fire Behavior advisory has been issued for North/West Nevada into Idaho and Northwest Utah. This advisory can be found here: <https://gacc.nifc.gov/gbcc/fuels.php>

Widespread areas of critically dry fuels continue across the northern half of the Geographic Area. ERC's are mainly in the 90th to above the 97th percentile across Northern parts of NV, northern half of UT and ID/WY, where most areas are near or just above record highs for the time of year

Sagebrush Live Fuel Moisture levels across most areas are near or above early August normals, and grasses are cured in all areas, even up to 7500 ft in Idaho and Wyoming. ERC's have risen above the 50th percentile across most of the southern third of Nevada, Utah, into the AZ Strip, with some stations in the 70th-80th percentile in southern/southeast Utah, which is near record levels for this time of year in those southern areas. However, increasing moisture over the next few days across southern areas should knock fuels down considerably

Resources:

Aviation within the Great Basin

- 2 VLAT's, 5 LATs, 2 CL-415
- 23 SEATs, 2 Fire Bosses
- 9 Type 1 Helicopters / 9 Committed
- 8 Type 2 Helicopters / 6 Committed
- 20 Type 3 Helicopters

Crews Committed within the Great Basin

- 12 IHCs Committed / 0 Available
- 27 T-2 IAs Committed / 0 Available
